Artist Statement

My name is Evan Perez. I'm 22 years old and currently studying Digital Arts at Stetson University with a focus on 3D Modeling. While I dabbled in artisitc works in high school, it wasn't until college where I started becoming interested in creative avenues like 3D Modeling & composition. I am inspired by my life expirences and the world around me. Some projects I have a clear plan in mind, while with others I continually iterate on the idea throughout the creative process. While I've only worked for a couple of years, I'm constantly trying to improve my work in every way possible.

Skill Proficiency

Photoshop

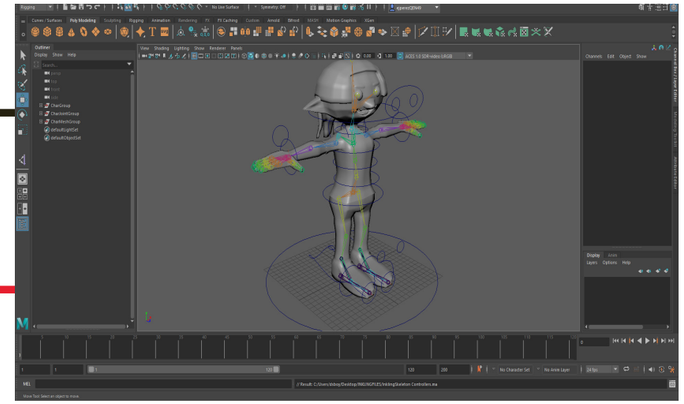
Maya

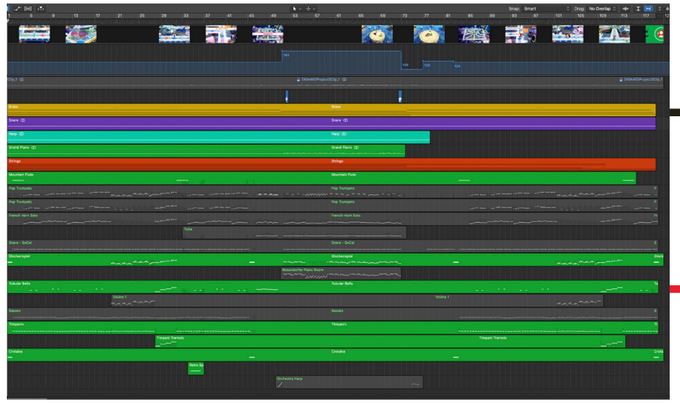
Unity

Logic Pro X

Premiere Pro

3D Modeling





Multimedia Composition

Video Editing
